

TAKING FUSION TO NEW HEIGHTS

Level up your Fusion feature set with dynamic height adjust capability. Height adjustment helps create better accessibility to interactive technology displays that are taking an increasing roll in the boardroom and the classroom.

FEATURES

- Mobile, wall and floor-supported solutions available
- Height adjustable box allows up to 400 mm of vertical adjustment instantly
- ControlZone for post-installation fine-tuning of height and leveling
- ClickConnect offers an audible click when the screen safely engages with the mount
- A full line of accessories can be installed with the mount, and the entire unit can be adjusted together
- Integrated security flag
- Spring system tested to 60,000 cycles and 10 years of use
