

WHERE BEAUTY MEETS TECHNOLOGY
MULTIMEDIA LECTERNS, PRESIDENTIAL TABLES
HUDDLE ROOM TABLES, FOLDING TABLES

Ladies and gentlemen,

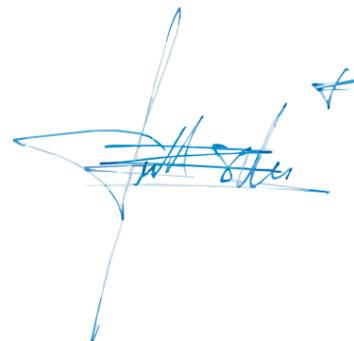

It is with great pleasure that we present you a catalogue of conference lecterns and presidential tables. Our offer includes five different product lines and we hope that they will suit all our Customers' demands.

In addition to the unusual design, our products have a number of innovative functional solutions together with a complete range of accessories.

Our aim is to create elegant, durable, mobile and multimedia furniture made for the 21st Century.

Thanks to the multi-year experience in fulfilling the orders for the most important national institutions, as well as for the private companies we were able to develop the product to be the best all over the world.

Let us have a different, more creative look at lecterns and conference tables.

conference table.

The tables from the Vestiga line are characterised with great stability and their front desk – bended in a subtle arch – gives the whole design not only elegance, but also enables to place logotype in a spatial version. The stable construction allows to design an option suitable for three, five or even seven persons.

Desk and legs are integral part of the table and the construction line is drawn delicately and subtly. The connection panels embedded in the desk enable a discrete and free usage of the multimedia tools image/sound. The front of the table may be freely customized with the application of different types of materials and finishing forms.
